rules

Rules

- The competitor who plays the round or rounds in the fewest strokes is the winner.
- If a competitor's putter touches the ball, that is considered a stroke.
- If a competitor's ball goes out of bounds, the ball should be put back where it went out and add one stroke to your current total.
- After every competitor has gone once, the competitor farthest from the hole goes next.

Overall notes:

- No back button as players should use built in android back button
- No dark mode option as mini golf is played in well lit areas
